Summer News

Welcome to the summer newsletter. Each summer the Boston chapter goes through great changes. A new board of directors for the chapter is elected, and new programs and initiatives are conceived. This newsletter starts the introductions to the new directors and introduces some of new initiatives for the chapter.

The board is focused this year on growing the membership, providing more programs and serving the membership. Each member of the board is dedicated to improving their function and developing a strong management team. New initiatives have begun in three important areas: programs, training, job search support, and communications. Our initial efforts on these initiatives are included here.

Board of Directors (BOD) sincere appreciation for your continued support of the chapter and its professional development programs and events. The Board of Director for 2004-5 include:

President -	Walter Foster

APICS Boston – New Job Opportunities Program

At the April board of directors meeting, Bill Morrison, VP of Membership introduced new member Jeff Boudreau. Many of us many know Jeff from area employment networking groups. He formed and ran 495NSG's ROC (re-employment opportunities committee) and founded 495HTN (High Tech Networking). Jeff has agreed to apply his skills to our chapter as Director of Job Opportunities. Prior to this, Jeff served in the capacities of Director-at-large for APICS Worcester, and VP of Membership for the APICS Oakland and East Bay chapters.

A significant change to Boston APICS job opportunities is it will be run exclusively for the members (the general public will not have access). For directions how to access, go to <http://www.bostonapics.org>

Jeff's plan, approved by the board of directors at its June meeting, is to use networking principles as the foundation. Company coordinators will be a key element in educating hiring managers of the opportunity to advertise positions to a very specific and talented candidate pool.

This approach benefits employers as they have access to a local and qualified set of highly skilled candidates. Paying no relocation or search fees, they reach into a candidate pool of professionals who routinely attend education seminars and are/working towards certification. Networking benefits candidates because they will have exclusive access to real jobs from local employers, jobs not likely to be advertised elsewhere.

APICS Boston's "job opportunity" effort will be unique in that ...

...It will be *vital*. The key to job networking is active and ongoing participation by hiring managers, job seekers and "alumni" (those who have been placed through the group). Dedicated networkers believe in the concepts of "pay it forward" and participate for life. APICS Boston will use the program in its marketing efforts as an example of how working together brings mutual benefit and value.

...It will be *active*. Company coordinators and marketing will publicize the program, but individual member participation is essential.

...It will be *exclusive*. Only active APICS Boston members will have access to the site.

...It will be *interactive*. This is a mutual effort between employer partners, company coordinators and individual members.

APICS Boston's intention is to eventually roll the program into a secure area of its website, but for the near term it will be operated as a membership-required Yahoo group.

To reach Jeff with any questions or ideas, send an email to apicsbostonjobs-owner@yahoo.com or jobbank@bostonapics.org.

Marketing & Publicity Corner

A letter from Zuby Singh, Asst. VP of Marketing & Publicity

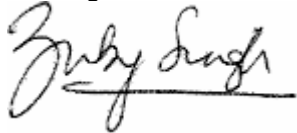

2004 and Beyond... Here we go again... a start of a brand new year and along with it comes a hope of fresh new beginnings, new ideas and enthusiasm. I want to welcome each one of you back for what we hope will be yet another good year. The Board of Directors (BOD) has met to discuss the upcoming year and we are confident it will be a good one. One of the many new ideas is the addition of the VP Corner for our newsletter. It is with great pleasure that we launch this new section of our newsletter. Please let us know what you would like to see from us in the upcoming months and any other feedback that you may have.

I am honored to be writing the first of many upcoming letters that you can expect to see from other board members. At this point my personal excitement revolves around the fact that each year we continue to offer something new. Last year the BOD committed to updating the newsletter to a colored and glossy print alongside with the launch of our newly designed Boston Chapter logo. We continue to strive in finding a mechanism to reach out to you, our membership in order to serve you better. Hence the launch of this new section from each of the VP's, space permitting of course and the goal of which is to communicate and update you on important matters.

As we start the new year, one of the other thoughts we would like to incorporate if possible is the launch of a new section called "Question of the Month?" We would like this question to come from a different member each month. This means that at least one of you, each month, would provide us with a question for the newsletter and someone else would provide the answer in the following newsletter. This can only work with your input. Hence, your input matters and you can make a difference but only if you get involved. I am confident that this can be an interesting section of the newsletter but again only with your input.

As we move forward to explore options and opportunities, we would like to continue to work with you to ensure that our approach is aligned with your needs and we continue our individual and collective efforts to forge indispensable partnerships with you and our member companies.

Looking forward to working with you for another successful year...
