

Job Title: Sr. Supply Chain Planner

Location: Waltham, MA

We are currently working with a financially healthy, \$4B organization that is looking to expand on its supply chain capabilities.

Having grown revenues by 8% and seeing stock growth above 25% over the past year, there is a lot of excitement about where this organization is headed. With offices in North America, South America, Europe and Asia – a presence in almost 100 countries – as well as a healthy pipeline of products to be introduced to the market, the future growth projections for this organization continue in the positive direction!

To help ensure on-going success, we are looking for a Sr. Supply Chain Planner who is looking to help take supply chain to the next level.

Position Description:

- Manager of Global Supply Planning reporting to the Associate Director of Supply Chain Planning & Logistics;
- Owner of the global supply plan for brands representing up to \$80M in on-hand inventory;
- Overall responsibility to develop a feasible rough cut capacity plan and set distribution / inventory goals for finished goods – both domestically and in up to 40 global locations;
- Responsible for associated process development, standardization and continuous improvement in areas like Supply Chain Optimization, Produce to Demand, and Sales & Operations Planning (S&OP);
- Work with plant managers to confirm planning process is being followed, manufacturing constraints are accurate and feasible production plans are developed;
- Protect the financial performance of the strategic business unit by identifying potential supply chain issues.

Background Required:

- A strong, global business acumen with the ability to establish trust / relationships quickly;
- Highly energetic individual with 5-7 years supply chain planning (including supply planning, production planning, capacity planning, inventory planning, etc.) experience;
- Working knowledge of a cGMP environment is a plus;
- Effective use of advanced planning applications like Oracle, Manugistics, JDA, SAP APO, Demantra, i2, etc.;
- Bachelor's Degree is required, no exceptions;
- Proven track record of success facilitating change management and driving continuous improvement.

Compensation Plan:

- \$85 – 100K + bonus;
- Full benefit package including medical, dental, disability and retirement;
- Renters' relocation possible.
