

The client is a large, well established, well known, profitable company. This company is restructuring their supply chain department created the need for 2 key players:

Senior Commodity Buyer

The supply chain person is responsible for pricing, negotiating long term contracts ensuring delivery from vendors, review bid proposals, and settle contracts, oversee contracts with outside manufacturers and key vendors.

- Negotiate pricing and determine contracts for key commodities, raw materials, packaging.
- Inventory management
- Set up vendor managed inventory systems
- Collect quote, solicit bids and make decision.
- Assess economic conditions for commodity items.
- Manage continuous improvement supplier performance.
- Reduce total supply chain cost.

- **Experience:**

- BS degree or equivalent experience
- 5+ experience procuring and managing food commodities where there is processing (not just mixing like with beverages)
- Proven negotiating skills
- Track record of supply chain cost reduction
- Knowledge of MRP
- Experience indentifying qualifying and certifying new suppliers globally
- Familiarity with KANBAN a plus

Location : 190/290 area
